- The Division received 7,026 claims, a 13% increase from the previous fiscal year. The largest number of increased claims came from Minimum Wage complaints. Wage & Hour investigators completed 7,273 investigations, an increase of 21%, from the previous year. The largest number again from Minimum Wage. 70% of investigations were completed within 90 days of the claim opening and 74% of completions were resolved informally.
- The Division collected for Michigan workers \$2,915,133 in unpaid wage claims. This number represents the highest Wage & Hour collections on record. Compared to FY 06, FY 07 collections for Act 390 were up 26%; collections for Michigan Minimum Wage up 124%; and collections for Prevailing Wage Act complaints were up 52%.
- The increased Division contacts, completed investigations and higher collections are partly occasioned due to the two additional investigators positions added to the Division.

**CHALLENGES:**

Normal day-to-day efforts to keep up with caseload---as unemployment rises/stays high, We see an increase in complaints from workers on non-payment/lack of full pay.
